Good Morning Darrin,

Thanks for the comments. It appears that TCEQ may have provided comments to Cindi. Can you confirm? If not, at some point we will probably want to make sure that TCEQ gets a chance to look at it.

Also, we appreciate the background docs. They are very helpful.

Greg

FYI, this is the draft package that was provided to Cheryl Seager, Region 6 Enforcement Division Director, in response to Patrick Traylor's request for specific feedback regarding the draft Chesapeake 114 information request. Please hold this "courtesy copy" close, as Darrin's email below indicates he is "not sure not sure if it has been sent yet."

Dan,

Attached is a marked up version of the Chesapeake 114, which Patrick Traylor requested. We provided it to Cheryl to send to Patrick but I'm not sure if it has been sent yet.

We also attached reference documents that we use in evaluating Texas permits.

1. General Permit Guidance – Calculations for Flash Emissions, Calculations for PW Emissions, Representative Analysis Criteria for Sampling, Truck Loading, VRU Capture and Control.
2. Specific Permit Type Criteria & Requirements – PBR Tier Permits, Standard Permits, Non-Rule Standard Permits.

As this document was to be transmitted through our management channels, this is a courtesy copy for you to look at but not use to brief up your management chain.

Darrin
